

# Cambridge Women's Health Center

## Dedicated to giving women quality health care

Cambridge Women's Health Center has offered OB/GYN and specialty care to women of all ages for many years. Today, our expert staff of doctors, nurses, and midwives is proud to work with women and provide the best health care.

### Patients here will find:

- Obstetrical/midwifery care
- Routine gynecological services, including minor office procedures
- Family planning
- Nutrition
- Menopause support
- Women's Mental health

Because we are located at The Cambridge Hospital, our patients find a 'one-stop' approach to care. This means easy access to many services and tests including state-of-the-art digital mammography, bone density testing, and access to experts in neurology, surgery, orthopaedics and other fields.

## Women's Health Services at Cambridge Health Alliance

In addition to Cambridge Women's Health Center, we also see patients at our sister site at Somerville Hospital and at our health centers in Cambridge, Somerville and Revere.

Growing families can choose from our brand new Maternity Suite at The Cambridge Hospital or natural childbirth at our free-standing Birth Center, across from The Cambridge Hospital.

We are also proud of our brand new Breast Health Center and Imaging Suite at The Cambridge Hospital, our Women's Headache Center at Somerville Hospital and digital mammography at all three hospitals.

### What our patients say:

*"The care I receive at the Cambridge Women's Health Center has always been outstanding."*

*"The providers listen to me and understand my needs."*

*"My doctor is a 'credit' to her profession. She truly listens and works with me like a partner."*

*"I can't say enough about the staff and the surroundings at the Women's Health Center. They are warm, professional, and knowledgeable."*

*Ana Domingues, MD*
