

Somerville Women's Health Center

Helping women of all ages feel their best

Somerville Women's Health Center opened in 2005 to provide the best OB/GYN and Women's Health care. Our expert team of doctors, nurses, nurse practitioners and midwives is taking new patients and is ready to meet your needs.

Patients here will find:

- Obstetrical/midwifery care
 - Including the "Centering Pregnancy" model of prenatal care
- Routine gynecological services, including minor office procedures
- Family planning
- Nutrition
- Menopause support
- Women's Mental health

Because the Women's Health Center is located at Somerville Hospital, you will have access to many services and tests under the same roof. This includes state-of-the-art digital mammography, women's headache center, and access to experts in neurology, surgery, orthopaedics and other fields.

A system of care

At Cambridge Health Alliance, women are part of a network of care that spreads across the entire Metro-north area. In addition to Somerville Women's Health Center, patients can use our sister site at The Cambridge Hospital and our many health centers in Cambridge, Somerville and Revere.

Growing families can choose our brand-new Maternity Suite at The Cambridge Hospital or our free-standing Birth Center, across from The Cambridge Hospital.

We also have a new Breast Health Center and Imaging Suite at The Cambridge Hospital.

What our patients say:

"I tell all my friends about the Somerville Women's Health Center, I have had wonderful care here."

"It is so easy to come to one place to see my provider, my nutritionist, and have tests done."

"The staff at the Women's Health Center all do a great job of making me feel comfortable."

"It's nice to know that I have doctors I can trust right here. The staff always treats me well, and it is much better than going into Boston."

Cheryl Hamlin, MD

Karen Lefkowitz, APRN

Insurance

We accept most health plans including Tufts, Blue Cross, Harvard Pilgrim, and Mass Health.

Language

Many of our staff members and providers speak other languages in addition to English. Interpreters for other languages are free of charge.
